2. COMMENT RE DRAWINGS

The "substitute" drawings filed 8/3/04 (which were neither labeled "Replacement" nor "Annotated" as required by 37 CFR 1.121(d)) are acceptable as to the changes presented therein, but are informal with respect to 37 CFR 1.84. A complete set of formal drawings is now required.

the logic means further cooperating with an audible alarm and chime means and an independent power supply;

a front cover fastened to the back plate, and containing manual arming spring-biased instant lock-alarm slide means cooperating with the instant lock-alarm mode electric switching means;

a jamb plate fastening to an opposing doorjamb and cooperating with the manual arming spring-biased instant lock-alarm slide means during the opening of the door to actuate an instant lock-alarm mode;
